

Make it easier to communicate to your customers by automating your text messaging with a one-way push from improveit 360 to Podium!

Standard Setup Fee
\$500*

*A dedicated user license is also required for tracking and connection continuity.

Event Triggers

Event triggers are created to send customer data to Podium when you want predefined texts to be sent

Standard Texts

- Appointment Scheduled
- Appointment Reminder
- Installation Reminder
- Thank You Message

Fully Trackable

All texts sent are tracked as Activities in improveit 360 for better reporting and visibility into your communication processes

Note - This integration is offered on an "as is" basis. Any changes to the setup procedure will be completed at your own risk.

Technical Constraints - We are beholden to the standard force.com platform limitations and constraints of custom development around managed code.

Fill out a support ticket to learn more about this integration
